This is an estimate only
It is NOT a guarantee of eligibility or benefit amounts

This estimate has been prepared to model a retirement scenario. It includes assumptions about your percentage appointment worked, salary, and other figures that may impact the benefit amount that you may receive at the projected retirement age. It also assumes current actuarial factors will remain unchanged until the projected retirement age. If you notice a data discrepancy or do not understand the data used in the calculations, please contact your local benefits office.

When you are ready to retire, contact Retirement Administration Service Center or your local benefits office for a Personal Retirement Profile. The Profile, along with the Retirement Handbook, will provide you with your options and the actions you need to take to elect University of California Retirement Plan (UCRP) benefits.

Special Situation

Documentation required:

- Marriage evidence
- Spouse's date of birth
- Contingent Annuitant's date of birth

Data Verification requested:

- Adjusted service credit

Data Verification required:

- HAPC has been entered
- HAPC was based on less than 36 months, this may cause your benefits to be overstated

The information shown here is not a guarantee of eligibility or benefit amounts. For an explanation of how the benefits are calculated, see the Summary Plan Description for your membership classification.

Note:	

UCRP and CAP plan details can be viewed on the UCRP and CAP Balance Statement page.

*Future benefits are based on your age, years of service, and your average salary, not on your UCRP after-tax and pretax balance. See your retirement benefit estimates above. This supplement stops when you reach age 65.

The information shown here is based on available data and is not a guarantee of eligibility or benefit amounts.

UCRP is a defined benefit pension plan described under IRC section 401(a). Retirement benefits are based on your age at retirement, your years of service, and your average salary, not on your UCRP balance. CAP is a supplemental benefit for certain UCRP members who were actively employed on specific dates and paid covered compensation during specific periods. UCRP balances are updated with contributions and interest and CAP balances are updated with interest monthly, at the end of each month.

For more information, go to UCnet´s UCRP page.
